PROJECT TITLE	Iot Based Safety Gadget for Child SafetyMonitoring & Notification

## CREATE IBM WATSON IOT PLATFORM AND DEVICE

STEP 1:

Create an IBM cloud account using IBM ID and password and log in to it.
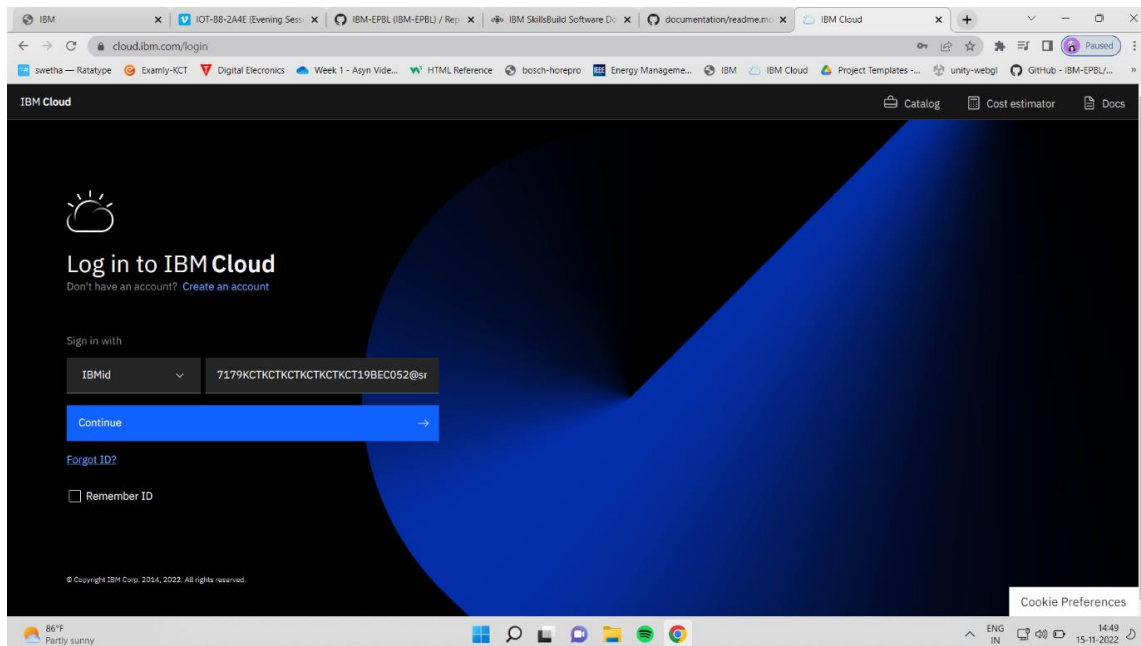

Review your account privacy notice and click continue
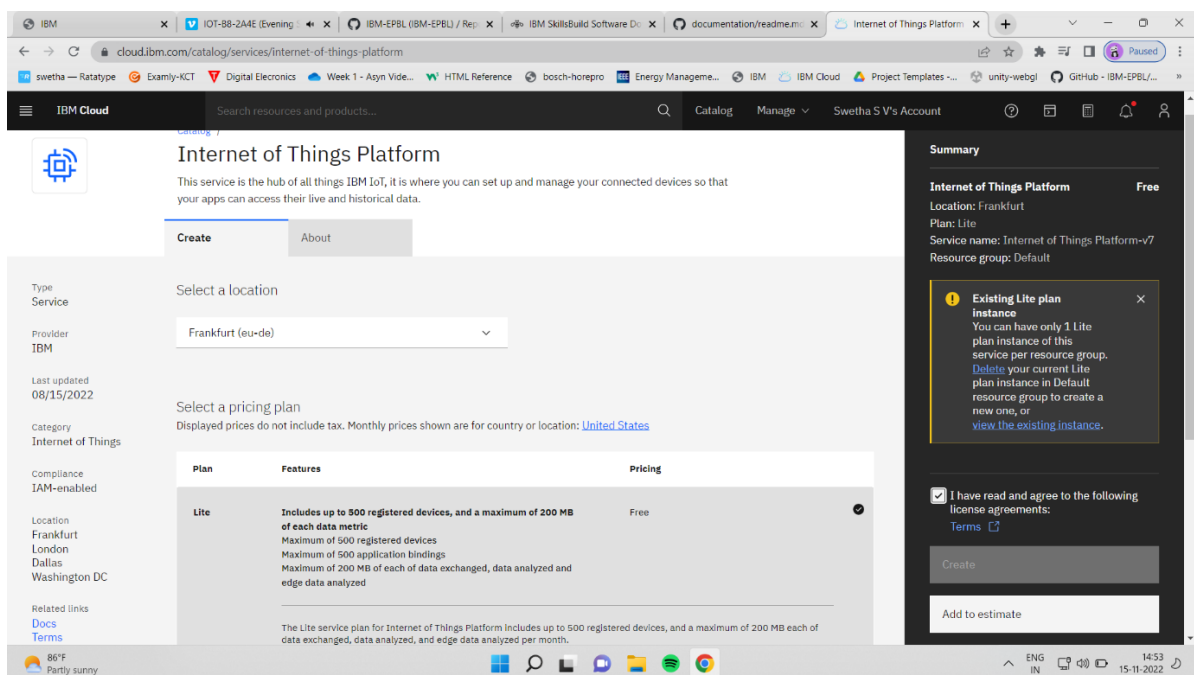

STEP 2:

This is the dashboard of IBM cloud
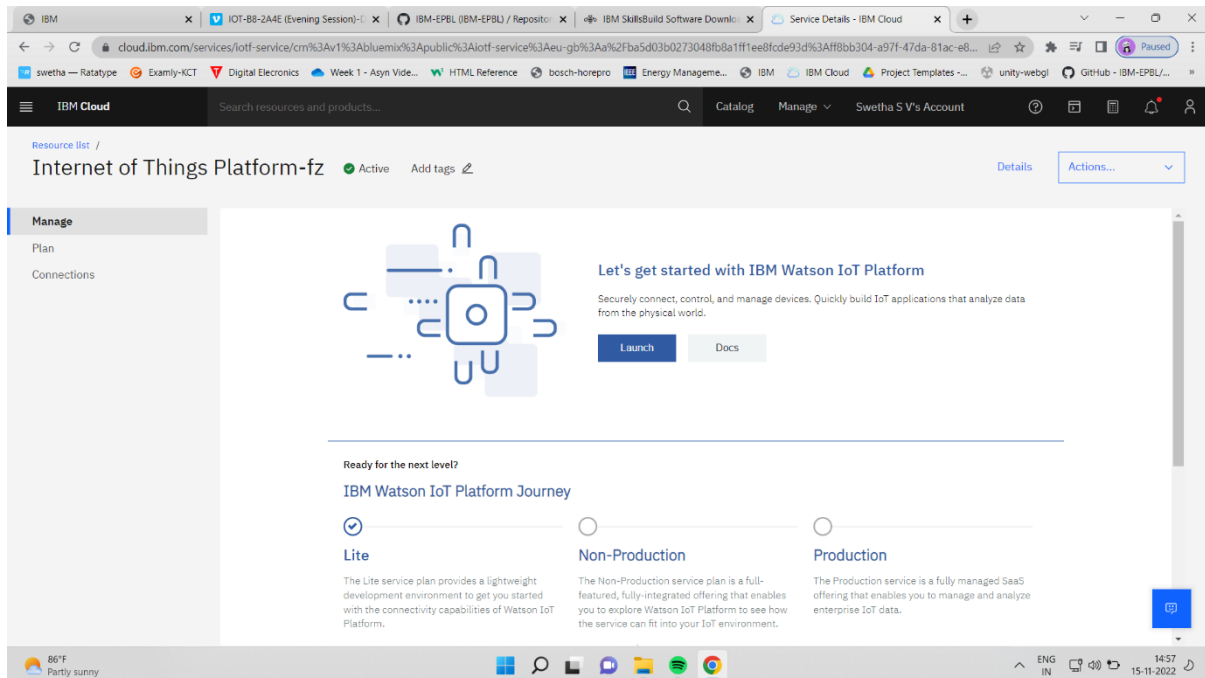

STEP 3:

Click the catalog on the top

STEP 4:

- Click on IOT in the category mentioned and enter the location.
- Configure your resource type, service name and choose the plan and create it.

STEP 5:

There are different options like manage, plan, connection.

Connection is used to connect to other devices.
